Elon said he'd ramp the Model 3 to mass production

He didn't just ramp it. He made Model 3 and Y the best sellers worldwide

He said the car could drive with pure vision. People said he was crazy — but look at FSD 12

He said he would grow Tesla to a \$600 billion company within 10 years. He did it in 6

How do shareholders respond? Let's take away his pay package and push him out of the company. Let's cut off our nose to spite our face.

I have seen some crazy moments in Teslas history but this takes the cake. What a mad mad world
